

SecPoint® Portable Penetrator™

WiFi Penetration Testing

SECPPOINT®
www.secpoint.com

- ✓ Over 143,000+ Vulnerabilities
- ✓ 1,400+ Web Shells Detected
- ✓ Virtual Software
- ✓ WiFi Penetration Testing
- ✓ Dark Web Search 4.0
- ✓ Node Scanning Capability
- ✓ Checks Against 70+ RBL Lists
- ✓ 33 Scanning Profiles Available
- ✓ 25 Report Languages
- ✓ Lethal Attack Technology SQLi, Blind SQLi
- ✓ Reflected XSS Detection
- ✓ Remote Code Execution
- ✓ Data Leak Detection
- ✓ TLS & SSL Vulnerabilities
- ✓ IoT Devices Scanning
- ✓ SCADA System Scanning
- ✓ Multi Factor Authentication
- ✓ AI and Machine Learning
- ✓ Professional Reports PDF & HTML
- ✓ Detailed Remediation
- ✓ Mitre CVE / Ubuntu USN / OSVDB
- ✓ SecPoint® RBL List Integration
- ✓ White Labeling Available
- ✓ Managed Service Provider (MSP)
- ✓ Full Data Privacy Menu
- ✓ Authenticated Scanning

2.4 GHz and 5.8 GHz WiFi Frequency Supported

PROTECT YOUR WI-FI NETWORK FROM HACKERS!

Introducing the SecPoint Portable Penetrator: Advanced Wireless Auditing and Penetration Testing Tool.

The SecPoint Portable Penetrator integrates the latest in cyber security testing technologies, providing a comprehensive toolkit for ensuring your wireless network's safety."

WiFi Pen Testing - Wireless Auditing

The Portable Penetrator™ empowers you to conduct authentic WiFi penetration tests on WEP, WPA, WPA2, and WPS protocols. Experience the process just as an actual attacker would! It not only identifies vulnerabilities in wireless networks but also provides recommendations for optimal security enhancements.

Over 143,000 Database Signatures

The Penetrator's vulnerability database is the culmination of over 25 years of intensive research. Housing more than 143,000 unique vulnerabilities, it's primed to detect any weak points in your network. To ensure relevancy and accuracy, this database receives multiple updates daily.

White-label Report Branding

Customize reports with your own logo, watermark, and company text. The Portable Penetrator™ allows for full branding and personalization, empowering you to sell these reports as a unique service offering.

Scan Any System or Network Device with the Portable Penetrator™

Our tool is engineered to assess any operating system or network device. By scanning devices within your network setup, you can detect and address vulnerabilities proactively, ensuring they're rectified before an attacker has the chance to exploit them.

Comprehensive Solutions for Detected Vulnerabilities

The Portable Penetrator™ provides in-depth remedies for any vulnerabilities it identifies, enabling users to promptly address and rectify the discovered issues.

Automatic Database and Firmware Updates

To stay at the forefront of security, the Portable Penetrator™ offers automated updates. It can download these updates several times daily, based on the user's preferences, ensuring that the vulnerability database remains as current as possible.

Whether you're a security professional or a novice, Portable Penetrator PP3000 is a device which is a complete solution for auditing and improving the level of security of wireless networks. Thanks to built-in report module you will have all the documentation of the security audits you have conducted. The product has a great value for a great value for a complete solution like Portable Penetrator PP3000.

Specifications	SecPoint® Portable Penetrator™ PP2000	SecPoint® Portable Penetrator™ PP4000	SecPoint® Portable Penetrator™ PP6000
Vulnerability Scanning Capacity	1-4 IPs	8 IPs	16-2048 IPs
Vulnerability Assessment & Ticket System	✓	✓	✓
Lethal Attack - SQLi - Blind SQLi	✓	✓	✓
Runs Virtually on Windows / Mac OS X	✓	✓	✓
33 Profiles HIPAA, Firewall, Aggressive and more	✓	✓	✓
Database of 143,000+ Vulnerabilities	✓	✓	✓
Database of 1,400+ Web Shells	✓	✓	✓
Perform Denial of Service (DoS)	✓	✓	✓
Whitelabeling & MSP Support	✓	✓	✓
Automatic database and software updates	✓	✓	✓

Features

Vulnerability Scan Features

- ✓ Vulnerability Scanning & Assessment
- ✓ Database of 143,000+ Vulnerabilities
- ✓ Database of 1,400+ Web Shells
- ✓ Dark Web Search 4.0
- ✓ Advanced scan options available
- ✓ Capability to launch Real Exploits
- ✓ File Upload Vulnerability Checks
- ✓ Compatible with scanning any OS
- ✓ OS independent interface
- ✓ SANS top 20 vulnerability checks
- ✓ Malware Detection capabilities
- ✓ Lethal attack detections (SQLi) & Blind SQLi
- ✓ Identification of missing security headers

Easy-to-understand Reporting

- ✓ XML PDF and HTML reports
- ✓ Whitelabeling Reports branding
- ✓ 20 Report Languages

Distribution Vulnerability Scanning

- ✓ Node Vulnerability Scanning
- ✓ Centralized reporting, data storage, control

WiFi Penetration Testing

- ✓ Audit WEP, WPA & WPA2 networks
- ✓ Identify hidden networks
- ✓ Supports both 2.4 GHz & 5 GHz frequencies
- ✓ Supports 8 dBi Antenna
- ✓ Provides a professional PDF report

Vulnerability Scan Configuration

- ✓ Virtual host scanning & Geo Mapping
- ✓ Scan specific ports & web directories
- ✓ Email notification when an scan is finished
- ✓ 2FA Google Authenticator Support
- ✓ 33 Scanning Profiles Available

Detection of Web Vulnerabilities & Errors

- ✓ Automatic web crawling engine identifies both known & unknown files on websites
- ✓ Detects Cross Site Scripting(XSS)
- ✓ Identifies Reflected Cross Site Scripting
- ✓ Discovers SQL Injection vulnerabilities
- ✓ Locates Web Errors
- ✓ Comprehensive TLS & SSL checks
- ✓ Remote Code Execution(RCE)

Multi User Support

- ✓ Supports concurrent user logins
- ✓ Individual user accounts with customizable scan and IP ranges
- ✓ Defined user security level
- ✓ Distinguishes between admin, regular users, and super admin
- ✓ Super Admin Interface available
- ✓ Suitable for Managed Service Providers (MSP)

Scheduled Vulnerability Scanning

- ✓ Supports automatic scheduled scanning
- ✓ Sends alerts for newly identified security vulnerabilities
- ✓ Displays new vulnerabilities, comparing them with previous records to highlight security improvements or changes

Firewall

- ✓ On board Firewall
- ✓ SecPoint® RBL List
- ✓ Blocks Millions of Toxic IPs & Undesired Countries

Scalable and Upgradeable

- ✓ Units are upgradeable to accommodate network growth through a software license
- ✓ Ensures protection of your investment

Penetration Testing

- ✓ Launches real exploits for platforms including Windows, Unix, Routers, Firewalls, and more
- ✓ Executes real denial of service attacks
- ✓ Initiates distributed denial of service through a distributed setup

Automatic Update

- ✓ Provides automatic daily database updates
- ✓ Offers automatic firmware updates introducing new features and functionality
- ✓ Centralized update point available
- ✓ Sends automatic alerts when the database expires
- ✓ Includes an option for manual update uploads via the interface

Support & Maintenance

- ✓ One year database subscription included
- ✓ Full support included in price
- ✓ Option for instant replacement hardware
- ✓ Web-based user interface (https)
- ✓ Quick setup wizard
- ✓ Configuration backup/restore
- ✓ Email alert and logging
- ✓ Build-in diagnostic function
- ✓ Full Data Privacy Menu
- ✓ Access to Terminal Console
- ✓ Expert Cybersecurity Support from Real Humans Not AI Chatbots

Security Scanning of

- ✓ CMS Vulnerabilities
- ✓ Wordpress, Drupal, Magento, Shopify, Umbraco, Joomla, Webshops
- ✓ Authenticated scans Cisco, Linux & *BSD Unix

Distributeur à valeur ajoutée

VOTRE PARTENAIRE TECHNOLOGIQUE POUR DES INFRASTRUCTURES IT SÉCURISÉES ET PERFORMANTES

EXPERTISE
Des solutions adaptées à chaque environnement

CONFIANCE
Un partenaire fiable à vos côtés

PERFORMANCE
Des infrastructures sécurisées et évolutives

SUPPORT
Un accompagnement technique de qualité

Des solutions IT innovantes pour un monde connecté et sécurisé

WIRELESS RADIO
Connectivité sans fil haute performance

RÉSEAUX & SÉCURITÉ IT
Des réseaux fiables et sécurisés

VIRTUALISATION CLOUD
Des solutions Cloud flexibles et évolutives

CYBERSECURITY
Protéger vos données et vos systèmes

VIDÉO PROTECTION
Solutions de vidéosurveillance intelligentes
