

Network Observability Solution

for the Enterprise Market

MonetX® provides a centralized platform combining critical network insights from both Data Centre's & Cloud infrastructures.

Unified Insights

Monetx is a unified monitoring solution, monitor the health & performance of the entire it infrastructure across physical, virtual & hybrid environments

Realtime Metrics

Stay ahead of issues with real-time performance and health metrics across your entire it infrastructure, from routers, switches, firewall to virtual servers and cloud environments.

Alerts & Integrations

30+ methods to provide real-time alerting integrations with ServiceNow, Slack, Jira Service Desk, PagerDuty, Zammad, Managed Engine ITSM, Solarwinds ITSM & many more.

AI-Driven Reporting

360 view of entire infrastructure, network, and datacenter on a single dashboard. Artificial intelligence is used to generate meaningful reports and decision-making.

Key Features

- ✓ Auto-Discovery - Asset Management
- ✓ Automated Network Topology Mapping
- ✓ Device Availability Monitoring (Routers, Switches, Firewalls, Servers, Storage, Virtualization, Sd-Wan)
- ✓ Latency, Packet Loss, Jitter Monitoring
- ✓ CPU, Memory & Hardware Health Monitoring
- ✓ Historical Performance Monitoring
- ✓ IP Address Management
- ✓ Network Configuration Management
- ✓ Network Traffic Analyzer
- ✓ Comprehensive Reports
- ✓ Executive Summary Dashboard
