AHEAD OF CYBER THREATS

Nucleon Malprob

Malware Detection as a Service

In a world of ever-evolving cyber threats, staying ahead is increasingly challenging. Zero-day attacks in particular pose significant risks, as traditional approaches like signatures and sandboxing often fall short. Nucleon Security offers innovative solutions to this modern problem. By leveraging its cybersecurity expertise and harnessing the power of AI for file detection, MALPROB provides a proactive defense against emerging threats, ensuring data and systems remain protected.

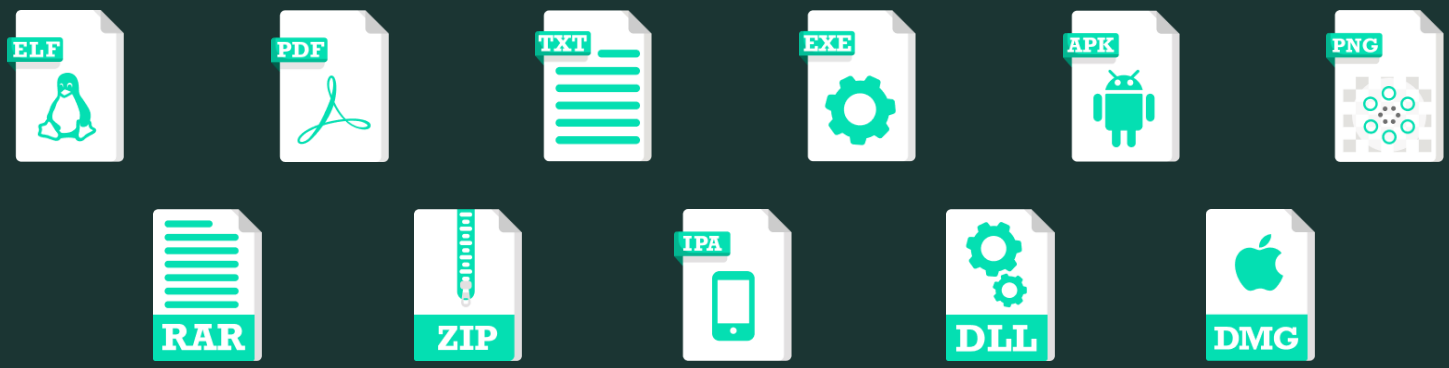

MALPROB is a malware detection and file analysis service, Powered by AI.

It offers a web platform, APIs interfaces and deliver fast and unparalleled detection rates offering protection for Nucleon's ever-growing portfolio of clients.
